5. Accessibility Plan

1. Aims

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Increase the extent to which disabled students can participate in the curriculum
- Improve the physical environment of each school to enable disabled students to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible information to disabled students

Our school aims to treat all its students fairly and with respect. This involves providing access and opportunities for all students and staff across the school community without discrimination of any kind.

Currently we provide:

- A broad and balanced curriculum for all our students, including those with SEN and disabilities through our SEND policy
- Additional support for students with SEN and disabilities through our SEND policy
- Increased awareness in terms of differentiation for those students with disabilities
- Ongoing staff training on student disability and discrimination
- Support to raise students' awareness of disability and discrimination
- Students different formats and associated technology for learning and examinations

The plan for the school will be made available online on the school website, and paper copies are available upon request.

Our school is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

The school supports any available partnerships to develop and implement the plan.

Our school's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in the school, this procedure sets out the process for raising these concerns.

We have included and considered a range of stakeholders in the development of this accessibility plan, including students, parents/carers, staff, visitors, Directors and the Advisory Board.

2. Legislation and guidance

This document meets the requirements of [schedule 10 of the Equality Act 2010](#) and the Department for Education (DfE) [guidance for schools on the Equality Act 2010](#).

The Equality Act 2010 defines an individual as disabled if he or she has a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on his or her ability to undertake normal day to day activities.

Under the [Special Educational Needs and Disability \(SEND\) Code of Practice](#), 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory

impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for students with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled student faces in comparison with non-disabled students. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

3. Monitoring arrangements

This document will be reviewed every 3 years by the Headteacher but may be reviewed and updated more frequently if necessary.

An accessibility audit will be carried out on an annual basis by the Headteacher, Finance Director and Caretaker and reported to the Advisory Board. Any recommendations will be implemented into the accessibility plan at this time.

The accessibility plan will be approved by the Advisory Board.

4. Links with other policies

This accessibility plan is linked to the following policies and documents:

- Health and safety policy
- Equality information and objectives policy (public sector equality duty) statement for publication
- SEND policy
- Special educational needs (SEN) information report
- Medical conditions policy
