

## Curriculum Overview

Subject	ASDAN Short Courses
Overview	<p>ASDAN is an educational charity and awarding organisation providing regulated qualifications, accredited curriculum programmes and a range of other courses to engage, elevate and empower young people. At All Saints School we use a selection of Short Courses to best support our students on their educational pathway.</p> <p>This includes; short courses in various subjects including PSHE, History, Geography, Animal Care, Roadwise, Living Independently, Beliefs &amp; Values, Computing, Hair &amp; Beauty and Sports &amp; Fitness.</p> <p>We also offer the Accelerating English Course which supports development of the key skills that enable our learners to access GCSE English.</p> <p>ASDAN is tracked using the ASDAN portal rather than through ARBOR to avoid repetition of data entries.</p>
KS4	<p>Students begin their chosen courses in year 10 and are able to work at their own pace. This gives some students the opportunity to complete more than one Short Course in years 10 and 11. The Short Courses are e-portfolio based and consist of a variety of challenges which gain credits towards the final certificate. Students develop key academic, social and vocational skills to prepare them for the future and have some opportunity to follow their own areas of interests with their study.</p>
